

SOLDERING UNIT

THERMOREGULATED "HIGH POWER" STATION 230V

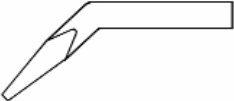

REFERENCE

SEA 300 code : 1010001012	With display / Iron 401 Delivered with tip 201-41C	300W
SEA 450X code : 1010001030	With display / Iron 501X Delivered with tip 365-40C	450W
SEA 600X code : 1010001002	With display / Iron 601X Delivered with tip 365-40C	600W

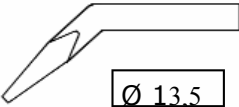

Tip for high power Iron 401 (300W)

P= Extremity in mm CB= Copper Raw CN= Copper Nickel LL= Long life

	201-11C Screwdriver type LL Curve P=5.5 Code : 1053001003
	201-40D Screwdriver type CN Straight P=5.5 Code : 1053001006
	201-41C* Screwdriver type CN Curve P=5.5 Code : 1053001007

Tip for high power Iron 501X/601X(450W) and (600W)

	365-40C* Screwdriver type CN Curve P=14 Code : 1053001021
	365-30C Screwdriver type CB Curve P=14 Code : 1053001017

*Original tip

THERMOREGULATED UNITS & ACCESSORIES

SOLDERING IRON 401 Without tip, adaptable on units SEA300

code : 1021001008

For larges solders (cars electricity, Copper rails etc.)

- power 300W - voltage 230V - weight 350g - lenght 300mm

SOLDERING IRON 501X Without tip, adaptable on unit SEA450X

code : 1021001021

Sheet metal work, soldering tank car radiator, etc.

- power 450W - voltage 230V - weight 510g - lenght 335mm

SOLDERING IRON 601X Without tip, for unit SEA 600X

code : 1021001022

For larges solders works in electrical engineering, electromechanical engineering...

- power 600W - voltage 230V - weight 650g - lenght 350mm

IRON SUPPORT

SE430 for iron 401/501X/601X

code : 1030001108

SE430
